European University Alliance for Global Health

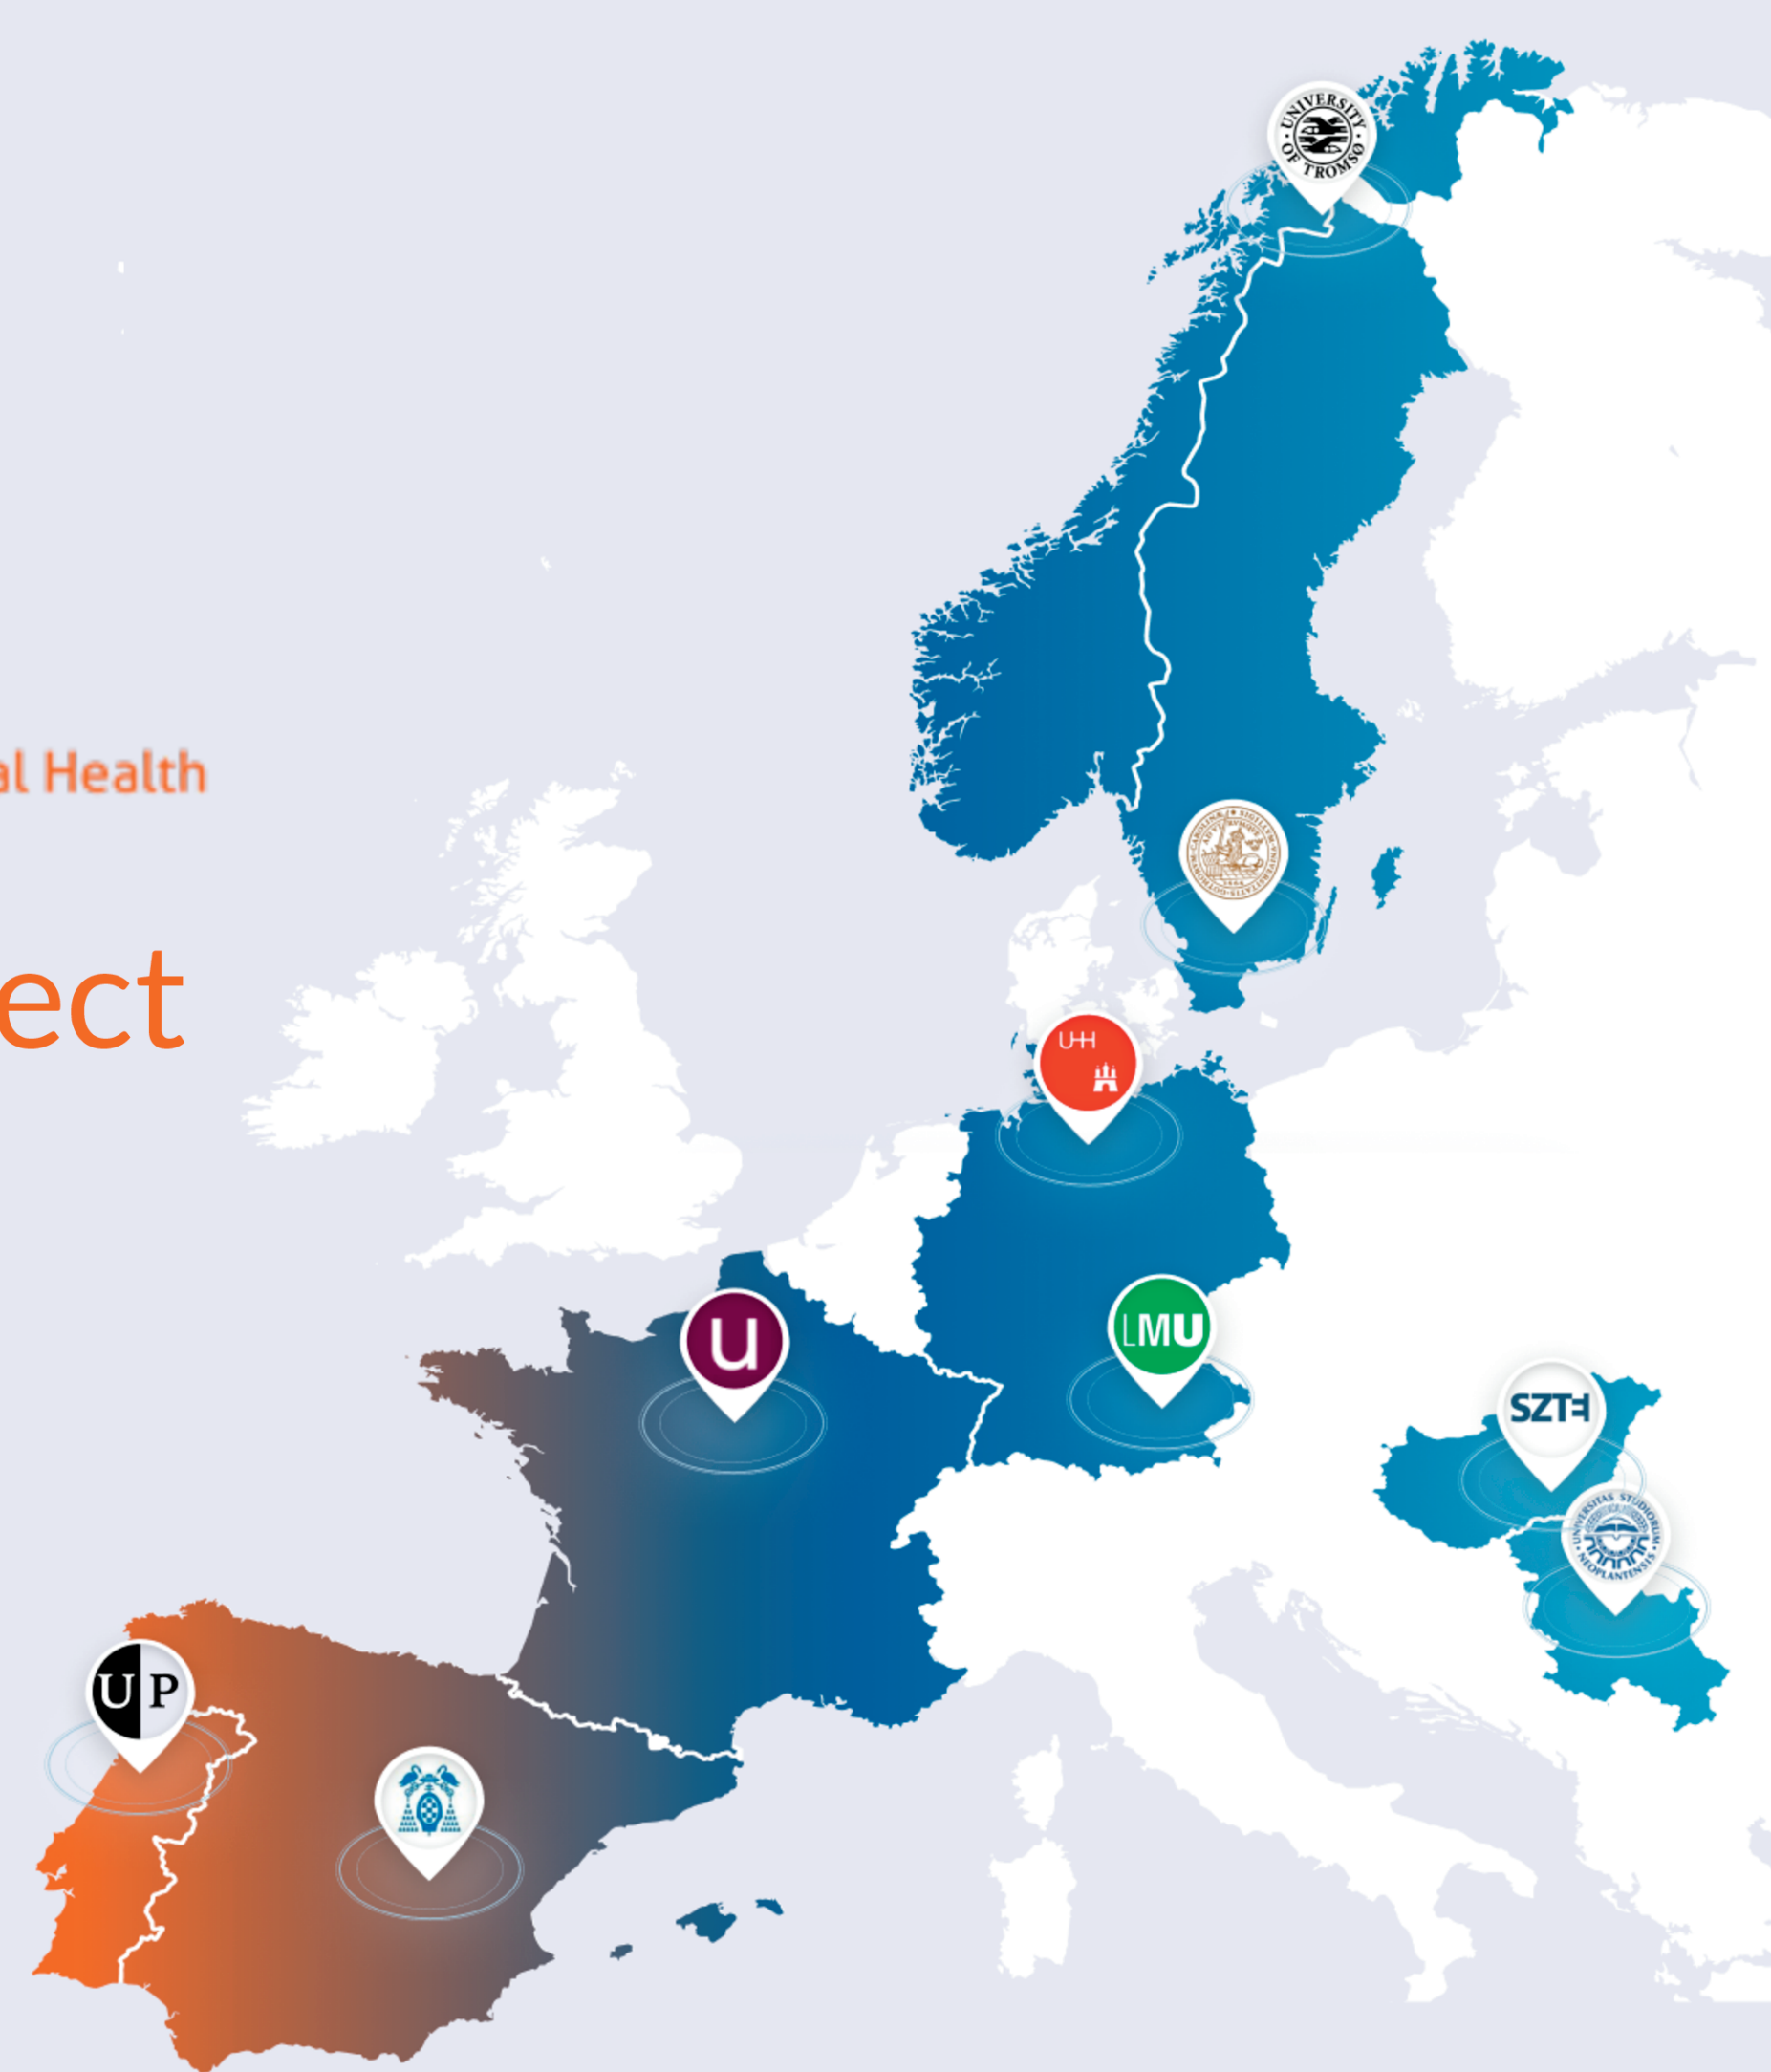

eduTAP - Project

EUGLOH

9 Universities, 1 Goal:

Building Europe's Campus for Global Health

- » Equipping students and staff with the skills needed to shape the future of global health
- » Creating a seamless, inclusive European campus that enables mobility, joint learning opportunities, and shared infrastructures
- » Addressing pressing health issues through interdisciplinary, co-created education, research and innovation that engages with societal needs

eduTAP - educational tapping

TAP TO PAY

tap to ...

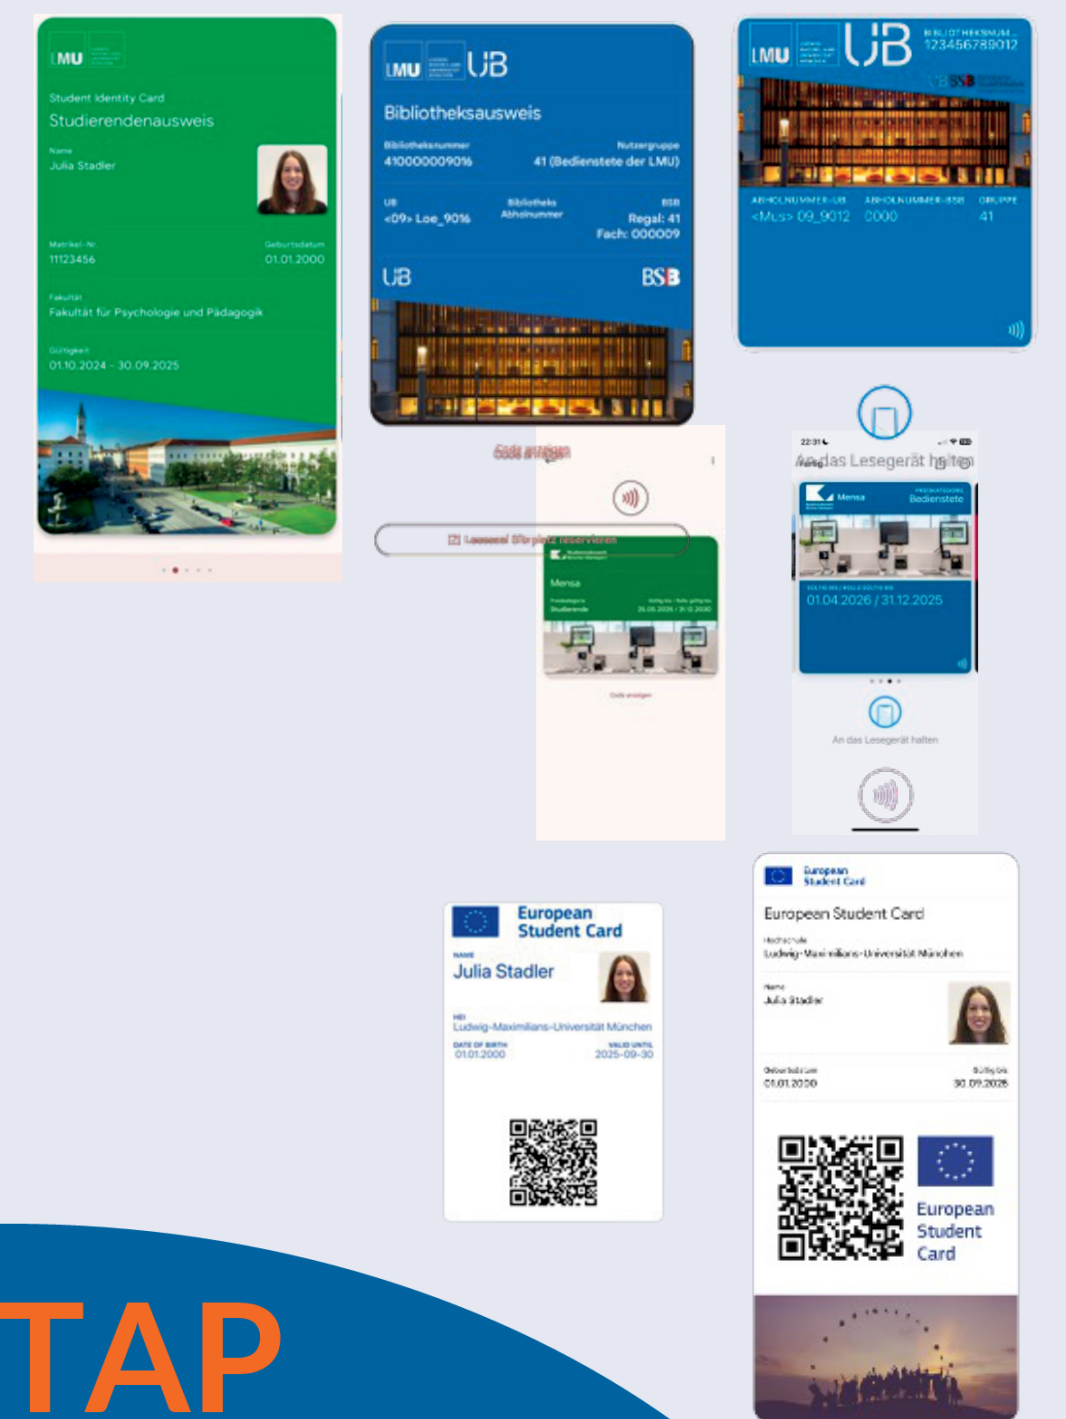

- identify yourself
- verify your status
- prove your entitlement
- claim a discount

tap to access a service on-site directly:

- tap to pay (open and close loop-payments)
- tap to open a door
- tap to lend a book
- tap to take a campus shuttle

no app, just tap!

eduTAP & the European Student Card (ESC)

a shared vision: seamless mobility & easy service access

eduTAPthe concept:

- Leveraging the full potential of digital wallets
- Splitting integrated campus cards into **dedicated service passes** and a **harmonized identity pass**
 - eduGAIN - Shibboleth credentials in a pass
 - a Verifiable Credential with Selective Disclosure based on ISO/IEC 18013-5 also usable for proximity use-cases
- Focus on **User Experience** and **interoperability** by using existing, secure and tested contactless standards
- Consistent across all universities: get a dedicated service pass via **eduGAIN login** & tap to access services

Add to Apple Wallet

Add to Google Wallet

eduTAPthe software:

- Create, issue and manage passes within the smart device wallets
- Interact with the wallet to give access to services, identify and Verify the status of students, staff and professionals of a global higher education community

eduTAP

Identity and service passes in the digital wallet

- Easy and consistent **service access**
- True technical interoperability and usability
- Fully Leverages the potential of digital wallets
- Relies on existing, secure and proven contactless standards – no reinvention needed
- Designed for a **global higher education community** (including students, staff and professionals)

→ **User Experience**
→ **Interoperability**

Sole focus on **Students**
→ Securely validate the student status

eduTAPhelps to **fulfill the great vision** of the **European Student Card** by enabling **interoperability** and a better **user experience**
